## Open Plan Recycling:

Save your business money and your cleaners time with less bins and fewer liners to service. Inspire employees towards collective action.

Reach your sustainability goals. An effective, flexible and beautiful solution for the workplaces of the future.

### Be Proud of Your Bins

Create a new perception of recycling

### Out in the Open

Avoid inflexible and expensive cabinetry

### Standalone Bins

Flexibility allows waste-streams and number of bins to change as your office grows

### Visible Bins

Engage staff and visitors in your environmental policy

### No Individual Desk Bins

Saves cleaners' time and costs; fewer bins to empty

## Product Features:

- Open or Touch (closed) lids
- Modular design - choose bins + graphics to suit your waste streams
- HD Connectors lock bins together to form one station
- Patented Bag Retainer System locks bin liners in place, while making them invisible
- New Zealand designed + made
- Easy to set up - assembly instructions online: [methodrecycling.com/assembly](http://methodrecycling.com/assembly)

## Specifications:

- 60L capacity per bin
- Made from 100% recyclable polypropylene
- CAD files: [methodrecycling.com/resources](http://methodrecycling.com/resources)

**Bronze.**

**Best Design Awards  
Winner 2015**

## Accessories:

- Bin liners
- HD Connectors
- Desktop accessories
- [methodrecycling.com/shop](http://methodrecycling.com/shop)

## Dimensions:

Measurements in mm  
Open height of closed lid bin - 1010mm

## Method - Beautiful Bins:

Method are the makers of beautiful recycling bins, designed and manufactured in New Zealand.

After buying a small company selling bins to businesses, Steven and India Korner soon realised that professional spaces were buying inconsistent and ineffective recycling solutions at odds with their aesthetic.

There was something missing – a product that could change workplace sustainable behaviours through great design.

Three years on, Method was born. With the name came our award-winning, and made to last, 60L Office Recycling Bins, that fit together to create visible recycling stations.

## Method Recycling Station Graphics:

Available in open or touch to open (closed) lids
